Subject: Conflict Minerals Supply Chain Investigation

Dear Supplier,

The intent of this letter is to inform you of recent regulations impacting the supply of products or materials to CCS ASIA PTE. LTD. and to request your cooperation in addressing this important matter.

On August 22, 2012, the U.S. Securities and Exchange Commission (“SEC”) adopted final rules implementing Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act. These rules impose disclosure and due diligence requirements on publicly traded companies that manufacture products containing certain minerals designated as “conflict minerals”: gold, columbite-tantalite (coltan), cassiterite, wolframite, and their derivatives, tantalum, tin and tungsten, that have been mined or smelted in the Democratic Republic of the Congo (the “DRC”), Republic of Congo, Angola, Burundi, Central African Republic, Rwanda, South Sudan, Tanzania, Uganda or Zambia.

For the customer in which CCS ASIA will be required to comply with these rules, CCS ASIA will conduct due diligence inquiries of its supply chain regarding conflict minerals that are included in any products, materials or supplies that are delivered to CCS ASIA.

We recognize that in order to complete this inquiry you may be required to ask your suppliers (and they may have to ask their sub-tier suppliers) for this information. By completing this disclosure form, you will assist CCS ASIA in creating an efficient approach to addressing these new regulations.

As a condition of all purchase orders issued, CCS ASIA will require its suppliers to complete the Conflict Minerals Disclosure if their products contain conflict minerals.

CCS ASIA is requesting information from your organization about conflict minerals. You are being asked to report the required company-level data and, if known, the smelter data for tin, tungsten, tantalum, and gold in your products supplied to CCS ASIA by October 30, 2020.

CCS ASIA appreciate your support and ask for your cooperation with this request for information.

Sincerely,

Daiki Sakamoto  
Managing Director

CCS Asia PTE LTD
